Majority of **Filipino** clinics and hospitals still rely on the traditional method of screening patients.

Resulting in **massive queues, crowded hospital lobbies, and longer waiting time.**

Why not make the **process more efficient?**

Introducing

LINGAPP

LINGAPP

AIMS TO SOLVE THE FOLLOWING PROBLEMS SUCH AS:

- Long hospital and clinic queues
- Facility overcrowding
- Delayed medical treatment
- Heavy administrative intake work
- Patient dissatisfaction

“BUT HOW?” YOU MAY ASK

LINGAPP

WORKS BY:

- Integrating an AI Model
- Automating patient screening
- Improving hospital workflow

LINGAPP

AND ITS BENEFITS TO THE SOCIETY

- Increased Healthcare Accessibility
- Reduced Economic Productivity Loss
- Better Public Health Responses
- Reduced Healthcare Worker Burnout

THE BUSINESS VIABILITY AND SUSTAINABILITY OF LINGAPP

Cost Reduction for Healthcare Institutions

Enterprise Integration

LET'S GET INTO THE

LINGAPP

LIVE DEMO

Thank you for listening!
